I just received the Nunn Finer Figure 8. I ordered a cob size and it fits perfectly. The quality of the leather is great and will break in easily. The reins are super! I usually hate rubber reins as my hands are small but these reins aren't bulky, stiff or too wide. I'm on a budget so I really had to decide if I wanted to spend this much money, but this bridle will last me forever and was worth the money!

# The Classics Collection

I foxhunt and I love the way my Nunn Finer Hunting Breastplate looks on my horse. I don't need a breastplate on my horse but almost everyone in my Hunt has them on their horses and I had to keep up with the Jones's. I found out later when everyone was complimenting me on my breastplate that theirs also were Nunn Finer's.

They all love them!
